The Oxford Handbook of Global Studies Handbook of Global Health, Security, and War Handbook of Global Social Policy The Handbook of Global Health Policy Handbook of Global Media Ethics The Handbook of Global Energy Policy Handbook of Global Environmental Politics Handbook of Global Leadership and Followership A Handbook of Global Freshwater Invasive Species Handbook of Research on Global Information Technology Management in the Digital Economy *Mark Juergensmeyer Martin Bricknell Stuart Nagel Garrett W. Brown Stephen J.A. Ward Andreas Goldthau Peter Dauvergne Joan F. Marques Robert A. Francis Raisinghani, Mahesh S.*

the oxford handbook of global studies provides an overview of the emerging field of global studies since the end of the cold war globalization has been reshaping the modern world and an array of new scholarship has risen to make sense of it in its various transnational manifestations including economic social cultural ideological technological environmental and in new communications the editors mark juergensmeyer saskia sassen and manfred steger are recognized authorities in this emerging field and have gathered an esteemed cast of contributors to discuss various aspects in the field through a broad range of approaches several essays focus on the emergence of the field and its historical antecedents other essays explore analytic and conceptual approaches to teaching and research in global studies and the largest section will deal with the subject matter of

global studies challenges from diasporas and pandemics to the global city and the emergence of a transnational capitalist class the final two sections feature essays that take a critical view of globalization from diverse perspectives and essays on global citizenship the ideas and institutions that guide an emerging global civil society this handbook focuses on global studies more than on the phenomenon of globalization itself though the various aspects of globalization are central to understanding how the field is currently being shaped

an insightful and contemporary review of current global health threats and their implications for security and stability in the handbook of global health security and war professors martin bricknell and richard sullivan deliver a fresh multidisciplinary take on the relationship between health and international affairs the book explores the most relevant global health threats and their implications for security and stability providing an up to date and authoritative perspective on these international challenges this practical guide addresses the unprecedented range of threats to health around the world and their potential to impact the security of populations states and the global system it discusses the academic theories that form the foundations for analysis of global health and international relations it also examines the impact of insecurity and war on health systems clinical health services and the health research and policy agenda readers will also find a thorough introduction to global health and the relationships between determinants of health health systems and health services comprehensive explorations of the three dimensions of human security state security and global security and their relationships to health practical discussions of the health impacts of war a summary of international humanitarian law and ethics as constraints on war and human barbarism perfect for undergraduate and postgraduate students with an interest in global health and security the handbook of global health security and war will also benefit social scientists researchers in global health and humanitarian practitioners

discussing how to use public policy to improve the quality of life for those at the bottom of the social hierarchy this text makes the case for policy that expands employment and facilitates jobs finances education and economic and cultural integration rewards merit and encourages voting and political participation political scientists from around the world measure the effect of democratization religion ethnicity race and mass media on internal conflict during the initial post cold war period in africa asia europe and latin and north america some topics include the role of mass communication on egyptian family planning russian nationalism and the guatemalan peace process

the handbook of global health policy provides a definitive source of the key areas in the field it examines the ethical and practical dimensions of new and current policy models and their effect on the future development of global health and policy maps out key debates and policy structures involved in all areas of global health policy isolates and examines new policy initiatives in global health policy provides an examination of these initiatives that captures both the ethical critical as well as practical empirical dimensions involved with global health policy global health policy formation and its implications confronts the theoretical and practical questions of who gets what and why and how when and where captures the views of a wide array of scholars and practitioners including from low and middle income countries to ensure an inclusive view of current policy debates

this handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics the advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims for many scholars teachers and journalists the existing journalism ethics e g existing codes of ethics is too parochial and national it fails to provide adequate normative guidance for a media that is digital global and practiced by professional and citizen a global media ethics is being constructed to define what responsible public journalism means for a new global media era currently scholars write texts and codes for global media teach global media ethics analyse how global issues should be covered and gather together at conferences round tables and meetings however the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics this handbook is a milestone in the field and a major contribution to media ethics

this is the first handbook to provide a global policy perspective on energy bringing together a diverse range of international energy issues in one volume maps the emerging field of global energy policy both for scholars and practitioners the focus is on global issues but it also explores the regional impact of international energy policies accounts for the multi faceted nature of global energy policy challenges and broadens discussions of these beyond the prevalent debates about oil supply analyzes global energy policy challenges across the dimensions of markets development sustainability and security and identifies key global policy challenges for the future comprises newly commissioned research by an international team of scholars and energy policy practitioners

the book s greatest strength is the range and theoretical ambition of its contributions to regime theory governance and

international cooperation recommended graduate students researchers and faculty d I feldman choice the first handbook of original articles by leading scholars of global environmental politics this landmark volume maps the latest theoretical and empirical research in this young and growing field captured here are the dynamic and energetic debates over concerns for the health of the planet and how they might best be addressed the introductory chapters explore the intellectual trends and evolving parameters in the field of global environmental politics they make a case for an expansive definition of the field one that embraces an interdisciplinary literature on the connections between global politics and environmental change the remaining chapters are divided into three broad themes states governance and security capitalism trade and corporations and knowledge civil societies and ethics with each section providing a cohesive discussion of current issues in depth explorations are given to topics such as global commons renewable energy the effectiveness of environmental cooperation regulations and corporate standards trade liberalization and global environmental governance and science and environmental citizenship a comprehensive survey of the latest research the handbook is a necessary reference for scholars students and policymakers in the field of global environmental politics

this handbook integrates the best leadership and followership theories and practices between the global north west countries of western individualistic cultures in europe north america australia and oceania and the global south east countries of eastern collectivistic cultures in asia africa south america and south east asian and oceania there is a need to bring the global north west and the global south east together to address global challenges such as the climate change global hunger and poverty domestic and international terrorism social justice gender inequality and domestic and global abuse of human and natural resources this innovative volume proposes that the democratic leadership of the global north west and the human centered followership of the global south east can transform the world if leadership and followership values education and practices are integrated it utilizes findings from positive psychology social psychology organizational behavior and world religions and contemplative wisdom traditions to highlight the case for global leadership and followership

invasive non native species are a major threat to global biodiversity often introduced accidentally through international travel or trade they invade and colonize new habitats often with devastating consequences for the local flora and fauna their environmental impacts can range from damage to resource production e g agriculture and forestry and infrastructure e g buildings road and water supply to human health they consequently can have major economic impacts it is a priority to prevent

their introduction and spread as well as to control them freshwater ecosystems are particularly at risk from invasions and are landscape corridors that facilitate the spread of invasives this book reviews the current state of knowledge of the most notable global invasive freshwater species or groups based on their severity of economic impact geographic distribution outside of their native range extent of research and recognition of the ecological severity of the impact of the species by the iucn as well as some of the very well known species the book also covers some invasives that are emerging as serious threats examples covered include a range of aquatic and riparian plants insects molluscs crustacea fish amphibians reptiles and mammals as well as some major pathogens of aquatic organisms the book also includes overview chapters synthesizing the ecological impact of invasive species in fresh water and summarizing practical implications for the management of rivers and other freshwater habitats

includes the most important issues concepts trends and technologies in the field of global information technology management covering topics such as the technical platform for global is applications information systems projects spanning cultures managing information technology in corporations and global information technology systems and socioeconomic development in developing countries
